-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

- 6) ☐ Other: _____.

DETAILED ACTION

Allowable Subject Matter

1. Claims 2, 4, 6, 8, 10 and 12 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3, 5, 7, 9 and 11 rejected under 35 U.S.C. 103(a) as being unpatentable over Fujii et al. (4,963,505) in view of Iio (4,712,152).

Regarding Claims 1, 3, 5, 7, 9 and 11, Fujii et al. disclose semiconductor device and method of manufacturing same where in Fig. 8 an oxide film is disclosed inside the semiconductor substrate having a first surface and a second surface. Fujii et al. fail to disclose the required surface structure of the semiconductor substrate in the required configuration. However, Iio disclose a semiconductor integrated circuit device where the required surface configuration of the semiconductor substrate is disclosed.

It would have been obvious to one of having ordinary skill in the art at the time the invention was made to include the required surface configuration of the semiconductor substrate in Fujii et al. as taught by Iio in order to have a semiconductor substrate structure with higher reliability.
